Report on attending the iNADO and the WADA 15th Annual Symposium from 11th-15th March 2019
Lusanne Switzerland

iNADO and the WADA 15th Annual Symposium was held from 11th of March to 14th March 2019. This year, the theme was to review the world anti-doping code its associated international standard, complains and athletes integrity. The theme for this symposium was "Towards 2021 Navigating the future together". During the sessions the various international standards was supposed to be implemented in year 2021 and certain international standards will be published in year 2020 after the documents have been ratified at the 5th world conference in doping in sport which will take place in November in Poland. All the International standards including those related to results management, education and complains which will be added along with testing and investigation Therapeutic Use Exemptions, laboratories and privacy protection.

The other important factor during this meeting was Athletic Committee hosted 75 athletes all over the world for one and a half day sessions on their own and give their proposals about athlete representation within WADA's governance structure.

iNADO's main theme was raising the water level the discussion was mainly based upon testing, education social drugs and doping and also role of e-learning in education, challenges which we might face to the draft 2021 Code. How to allocate resources in a TDP and also cooperation with International Federations testing program.
